European American Armory Corp.

WITNESS:
Tanfoglio's Finest

Tanfoglio of Italy has improved on a great tradition. The Witness pistol represents the end result of the original CZ design taken to its highest level of refinement. If an offspring has ever achieved status beyond that of its parent, the Witness is a sterling example. The Witness boasts all the same features that made the original CZ design such a popular favorite. But Tanfoglio's high tech engineering methods and extensive design improvements have guaranteed the Witness an honored place in firearms history several steps above that of its respected ancestor. Many of those improvements have been inspired by lessons learned on the field of competition, where the Witness has become the pistol of choice for shooters like all-time great Brian Enos...and top lady competitor Shirley Hamilton.

All Witness pistols feature:

- Rugged, all steel construction;
- Extremely tight tolerances typically found only in the aerospace industry. Those close tolerances allow almost total interchangeability of most parts between most Witness pistols, and even allow almost unlimited interchangeability of major components like slides and barrels. The end result is a *fully coordinated multi-caliber system, easy and inexpensive to create, install and maintain;*
- A time proven selective double/single action which allows the Witness to be kept at the ready either in *Condition One* (cocked and locked) or *Condition Two* (hammer down);
- Both a frame mounted sear block safety and an internal firing pin block;
- An incredibly trim, slim profile, ergonomically designed grip that fits even the smallest hand with ease. The Witness has absolutely the most comfortable pistol grip of any high capacity pistol on the market;
- Competition-inspired sighting systems;
- One of the firearms industry's broadest selections of calibers, from .22 rimfire through 9mm Para, 9mmX21, .38 Super, .40 S&W,.41 AE, .45 ACP, and even the powerhouse 10mm;
- A choice of either the traditional double action trigger or a finely tuned single action trigger, available on all models;
- Thoughtful touches like slide grip serrations front and back to allow for easier slide manipulation, and serrated front and back straps for a slip-free grip;
- A redesigned trigger guard and an extended beavertail on all Witness models... the two refinements our customers have requested;
- The ability to start with a basic factory model Witness pistol and create a highly customized personal firearm...*even a full house competition pistol*...using a spectacular selection of drop-in replacement parts available through European American Armory's Custom Shop! No other firearm on the market offers that kind of versatility and ease of modification;
- All Witnesses come packaged in E.A.A.'s special hard plastic security case;
- *All Witness pistols come with E.A.A.'s Limited Lifetime Warranty.*

- LIMITED LIFETIME WARRANTY -

Witness Standard Model

"Standard" is a pretty inadequate description for a pistol that comes right out of the box equipped with more extras than a lot of firearms at twice the price. This basic model Witness is where it all starts. As-is, it's perfect for home defense, as a low cost foundation for building your own customized creation, or as the starting point for a complete multi-caliber system.

CALIBERS: 9mm, .40 S&W, .38 Super, .45 ACP, 10mm (.22 LR conversion units available)
LENGTH: Overall - 8.10"; Barrel - 4.50"
WEIGHT: 33 oz.
CAPACITY: 9mm - 10 plus 1; .40 S&W - 10 plus 1; .38 Super -10 plus 1; .45 ACP - 10 plus 1; 10mm - 10 plus 1
FINISHES: Blue, Stainless Steel, Chrome
OPTIONS: SEE CHART ON PAGE 5

Witness Sub-Compact

Although smaller in size, the Witness Sub-Compact comes standard with all the big features of the standard size model. Its shorter height and slide length and its reduced weight make it a perfect choice either for law enforcement backup or for anyone interested in quick, comfortable handling combined with full-featured performance. Witness Sub-Compacts come equipped with special recurved magazine base pads for improved grip support.

CALIBERS: 9mm, .40 S&W, 45 ACP
LENGTH: Overall - 7.24"; Barrel - 3.66"
WEIGHT: 30 oz.
CAPACITY: 9mm - 10 plus 1; .40 S&W - 9 plus 1, 45 ACP - 8 plus 1
FINISHES: Blue, Hard Chrome
OPTIONS: SEE CHART ON PAGE 5

NEW 45ACP Sub Compact 1995

WITNESS FAB
(with de-cocking system)

All the spectacular features of our popular Witness pistols...*plus a special ambidextrous hammer drop safety/de-cocker system.* It's the best of both worlds...the safety system required by so many law enforcement agencies and the state of the art, competition-inspired features of our world class Witness pistols. Full size and Subcompact sizes are available.

CALIBERS: 9mm, .40 S&W, .45 ACP
LENGTH: FULL SIZE: Overall - 8.10"; Barrel - 4.50"
SUBCOMPACT: Overall - 7.24"; Barrel - 3.66"
WEIGHT: FULL SIZE: 33 oz.
COMPACT: 30 oz.
CAPACITY: FULL SIZE: 9mm - 10 plus 1; .40 S&W - 10 plus 1; .45 ACP - 10 plus 1;
COMPACT: 9mm - 10 plus 1; .40 S&W - 9 plus 1
FINISHES: Blue, Hard Chrome
OPTIONS: SEE CHART ON PAGE 5

- LIMITED LIFETIME WARRANTY -

Witness Carry-Comp

Here's a great idea for reducing muzzle flip and trimming your reaction time between shots... *and you can keep your pistol a manageable size.* Adding a muzzle compensator makes most pistols just too big and unwieldy for normal use. But our Witness Carry-Comp is no larger than a standard pistol, because we've shortened the slide and barrel a full inch *before* adding the single port, all-steel compensator. What we haven't reduced is the list of features or the value. The Carry-Comp is still a Witness all the way.

CALIBERS: 9mm, .40 S&W, .38 Super, .45 ACP, 10mm

LENGTH: Overall - 8.10"; Barrel - 4.12" (without compensator attached)

WEIGHT: 34 oz.

CAPACITY: 9MM - 10 plus 1; .40 S&W - 10 plus 1; .38 Super -10 plus 1; .45 ACP - 10 plus 1; 10mm - 10 plus 1

FINISHES: Blue, Stainless Steel

OPTIONS: SEE CHART ON PAGE 5

Witness Multi-Cal Combos

CHOOSE: 9MM & 40SW OR ANY COMBINATION OF
45ACP / 38 SUPER / 40SW / 9MM / 10MM / 22LR

Here's a great start on an affordable, multi-caliber system. With a Witness 9/40 Combo(our original multi-caliber model) you have the capability of shooting either high velocity, light recoiling 9mm ammo or hard hitting .40 S&W, all in one pistol! The Witness 9/40 comes as a complete Witness frame assembly, plus one complete 9mm conversion unit (slide, barrel, magazine, recoil spring and guide) and one complete .40 S&W conversion unit, all boxed up together in E.A.A.'s convenient hard plastic security case. Witness' tight tolerances guarantee easy interchangeability between calibers. *Choose from either full size or *subcompact configuration,* and select from either all-blued or duo-tone finish. Other multi-caliber combinations are also available, including .38 Super/.45 ACP and 10mm/.45 ACP.

OPTIONS: Tritium night sights, adjustable rear sights, ambidextrous safety, extended safety, extended mag release, and low profile wood or rubber grips.

NOTE: The original 9/40 frame will accept only 9MM or 40SW. This frame can not be converted to 45ACP or 38SUPER.

38/45 frame can be converted to all calibers, you must have a new conversion kit to convert to 9MM or 40SW on the 38/45 frame. A new conversion kit is designed to accommodate the larger magazine and different slide lock up on the 38/45 frame. All witness 38 SUPER and 45ACP pistols can be converted to any caliber with the new conversion kits.

**Sub-compact available in 9/40 combo only; other caliber combinations available only in full size.*

Witness Sport Series

This sporterized version of the Witness is a great compromise between a standard factory model and a compensated custom pistol. The Witness Sport is available either with a *regular length slide or in a long slide version (L/S),* or a ported barrel and *slide* (LSP) to reduce recoil and muzzle flip. The Witness Sport Series comes standard with our fully adjustable *Super Sight,* with an extended thumb safety and a magazine with bumper pad.

CALIBERS: 9mm, .40 S&W, .38 Super, .45 ACP, 10mm

LENGTH: SPORT: Overall - 8.11"; Barrel - 4.50"
SPORT L/S: Overall - 8.38"; Barrel - 4.75"
SPORT LSP: Overall - 8.38", Barrel - 4.75"

WEIGHT: STD: 33 oz.
SPORT L/S OR LSP: 34.5 oz.

CAPACITY: 9mm - 10 plus 1; .40 S&W - 10 plus 1; .38 Super - 10 plus 1; .45 ACP - 10 plus 1; 10mm - 10 plus 1

FINISH: Duo-Tone only

Witness Competition Pistols: Brian Enos' Choice

Optional
cone comp system

Witness Gold Team:

It's the class of the competition! Our Witness Gold Team is the top of the line from our own Custom Shop...a true full house competition pistol with absolutely all the bells and whistles you'll need to compete on an equal footing with the best IPSC, action and speed shooters in the world. Even though our Gold Team is a true custom built, performance tested, world class competitor, you don't need to have a Swiss bank account to own one. Because through economies of engineering and assembly developed jointly by Tanfoglio and E.A.A., we've managed to keep the cost *much* lower than you're accustomed to paying in most custom shops for most other high capacity IPSC pistols. ***And now our Gold Team is even available in new .38 Super and .45 ACP!*** Our Witness Gold Team features:

- Our exclusive Witness Match Frame with squared trigger guard, extended beavertail, beveled mag well, and front and back straps checkered at 24 lpi;
- Triple chamber compensator on our own match quality barrel;
- Adjustable single action trigger;
- Extended safety and extended mag release;
- Special competition hammer;
- Pre-drilled and tapped for our Gold Team scope mount and equipped with our fully adjustable *Super Sight;*
- Magazine with integral bumper pad;
- Special low profile competition grips;
- Handsome, protective hard chrome finish.

CALIBERS: 9mm X 19, 9mm X 21, .40 S&W, .38 Super, .45 ACP, 10mm

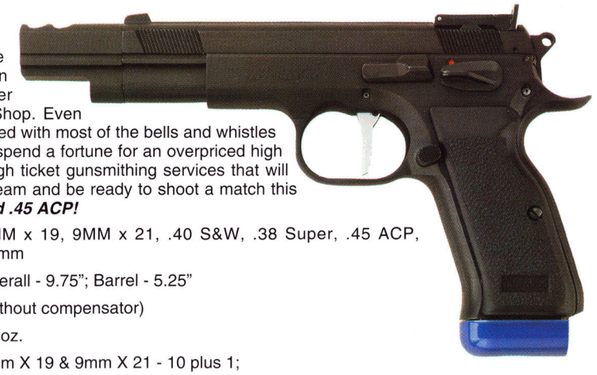
LENGTH: Overall - 10.5"; Barrel - 5.25" (without compensator)

WEIGHT: 38 oz.

CAPACITY: 9mm X 19 or 9mm X 21 -10 plus 1; 40 S&W - 10 plus 1; .38 Super - 10 plus 1; .45 ACP - 10 plus 1; 10mm - 10 plus 1

OPTIONS: SEE CHART ON PAGE 7

Witness Silver Team



Can you imagine buying a fully equipped, match-ready, high capacity competition pistol for the same price as just a stripped high capacity frame from some other manufacturer? Our Witness Silver Team is dedicated to the proposition that you don't have to be rich to participate in IPSC competition. The Silver Team is the intermediate level competition pistol from the E.A.A. Custom Shop. Even though it's modestly priced, it's also extremely competitive, and already equipped with most of the bells and whistles you'd probably pay extra to have installed on one of those other frames. Why spend a fortune for an overpriced high capacity frame, a lot of very expensive add-on parts and accessories, and high ticket gunsmithing services that will probably include a six month to eighteen month wait? Buy a Witness Silver Team and be ready to shoot a match this weekend. ***And now, the Silver Team is even available in new .38 Super and .45 ACP!***

Standard features include:

- Dual chamber compensator;
- Adjustable, single action trigger with a crisp trigger pull;
- Extended safety and paddle type mag release;
- Competition hammer;
- Equipped with our own fully adjustable *Super Sights* and drilled and tapped for a Gault scope mount;
- Magazine with integral bumper pad;
- Double-dipped blue finish;
- Rubber grips.

CALIBERS: 9MM x 19, 9MM x 21, .40 S&W, .38 Super, .45 ACP, 10mm

LENGTH: Overall - 9.75"; Barrel - 5.25" (without compensator)

WEIGHT: 34 oz.

CAPACITY: 9mm X 19 & 9mm X 21 - 10 plus 1; .40 S&W - 10 plus 1; .38 Super - 10 plus 1; .45 ACP - 10 plus 1; 10mm - 10 plus 1

FINISH: Blue **OPTIONS:** SEE CHART ON PAGE 7

Witness Limited Class:

If you want to compete in the Limited Class of competition Shooting, the Witness Limited is your choice. This gun is the favorite of EAA Team Member Brian Enos. Out of the box it is ready to compete with the best and you don't have to have a truck load of money to own one.

* Simply, the Witness Limited is a Witness Gold Team without a compensator in a double blue finish.
* Features include: match frame, supersight, 20 lpi checkering on frame front and back strap, extended safety and magazine release, adjustable single action trigger, all checkered low profile grips.
* Fully approved by USPSA/IPSC

CALIBERS: 9MM x 19; 40 S&W; .38 Super; 45 ACP

CAPACITY: 9mm - 10 plus 1; 40 SW - 10 plus 1; 38 Super - 10 plus 1; 45 ACP - 10 plus 1

LENGTH: Overall - 8.38"; Barrel - 4.75"

ASTRA

The dawn of a new era of high performance super pistols!

No pistols in the world are as ahead of their time as the A-70, A-75 and A-100 from Astra. They're three high tech dynamos just waiting for the twenty-first century to happen. Like all Astra products, the A-70, A-75 and A-100 are built with the quality, features and attention to detail that have made Astra a world leader for generations. Like all E.A.A. products, they all come with an exclusive *Limited Lifetime Warranty* to guarantee a lifetime of dependable use. In design, engineering and the firearms industry's best support services, Astra products are ahead of their time. *With Astra, the future is now!*

NEW FOR 1995! Stainless Steel and 45ACP

Astra A-75

For police or civilian use, Astra's new A-75 is the most dynamic little super-compact in the world. It's the perfect "backup" for the nineties...a *big* improvement over obsolete "backup" revolvers. *The A-75 is the first subcompact, double-action semi-auto chambered in three serious, full power calibers...9mm, .40 S&W, and 45ACP.* It's small enough to fit easily in an ankle holster or a nightstand drawer...*with the magazine removed for added at-home safety!* You can't do that with a revolver.

The Astra A-75 includes these benefits:

- Chambered in the three most common law enforcement calibers. For police, that allows the same ammunition to interchange between both duty and backup sidearms. For homeowners, that means many ammunition options are readily available;
- Higher capacity than an old style backup revolver;
- It comes with a triple safety system *including* a de-cocking lever, just like most police officers' full size duty pistols;
- The selective double/single action makes it easy and safe to use;
- The all-steel construction guarantees rugged durability. *The A-75 is available in an all-aluminum model, which makes the already-compact A-75 a real featherweight at just 24 ounces!*

CALIBERS: 9mm, .40 S&W, 45 ACP
LENGTH: Overall - 6.5"; Barrel - 3.5"
WEIGHT: 31.0 oz.
WIDTH: 1.25" (grip)
HEIGHT: 4.75"
CAPACITY: 9mm - 8 plus 1; .40 S&W - 7 plus 1, 45ACP - 7 plus 1
FINISHES: Blue, Nickel Stainless Steel
OPTIONS: SEE CHART ON PAGE 12

Astra A-100

It's unlikely that any pistol has ever been better suited to law enforcement needs than the A-100, the full featured duty-size member of the dynamic Astra trio. Even though the A-100 is priced below most of the other law enforcement leaders, its impressive list of features includes:

- A selective double/single action;
- Law enforcement-approved de-cocking lever;
- Automatic firing pin block safety to guard against accidental discharge;
- All steel construction;
- New higher capacity staggered magazine;
- Streamlined size and weight.

CALIBERS: 9mm, .40 S&W, .45 ACP
LENGTH: Overall - 7.5"; Barrel - 3.8"
WEIGHT: 34.0 oz
CAPACITY: 9mm - 10 plus 1; .40 S&W - 10 plus 1; .45 ACP - 9 plus 1
FINISHES: Blue, Nickel, Stainless Steel
OPTIONS: SEE CHART ON PAGE 12

NEW FEATHERWEIGHT 9MM IN 1995

Astra A-100 Carry Comp

Only Astra and European American Armory could improve upon one of the finest pistols in the world... the A-100 compact in size, light in weight, high capacity, and now, a compensator to reduce recoil and muzzel jump. This is the ideal gun for law enforcement or home defence. Why spend hundreds more on the competition basic pistol when you can have an A-100 compensated for less? If you all ready have an A-100 don't worry you can now get an A-100 carry comp conversion kit to fit your pistol.

CALIBERS: 9mm, .40S&W, .45ACP
LENGTH: Overall - 8.5"; Barrel - 4.3"
WEIGHT: 38 oz.
CAPACITY: 9mm - 10 plus 1; .40 S&W - 10 plus 1; .45ACP - 9 plus 1
FINISHES: Blue
OPTIONS: SEE CHART ON PAGE 12

Astra A-70

If single action super-compacts are more to your liking, the Astra A-70 should be your choice. First introduced in 1991, the A-70 has already become one of America's favorite compact pistols. E.A.A. offers the powerhouse little A-70 in original 9 MM caliber *and in new . 40 S&W, a caliber not previously available.* The A-70 boasts an impressive list of ahead-of-the-art features...the kind of features that will be as impressive in the twenty-first century as they are in the twentieth century...including:

- Traditional single action-only operation with a crisp single action trigger;
- Windage-adjustable, three dot sights;
- Checkered grip straps and trigger guard.
- All-steel construction.

CALIBERS: 9mm, .40 S&W
LENGTH: Overall - 6.5"; Barrel - 3.5"
WEIGHT: 29.24 oz.
WIDTH: 1.2"
HEIGHT: 4.75 oz.
CAPACITY: 9mm - 8 plus 1; .40 S&W - 7 plus 1
FINISHES: Blue, Nickel, Stainless Steel

Single Action & Double Action Revolvers

Great buys, great fun for wheel gunners.

Big Bore Bounty Hunter

We knew that old time, single action revolvers weren't dead! We knew that the sheer shooting fun and the sense of history that goes hand-in-hand with a good old single action was still one of those timeless joys that any shooter could relish. So, we introduced our Big Bore Bounty Hunter...*before most of the major manufacturers decided to get back on the single action bandwagon.* And we're glad we did, because our Big Bore Bounty Hunter has been a tremendous success. It's true to the tradition of the wild, wild west...a rugged, dependable shootin' iron that feels just as good in the woods with a scope mounted on top as it does in an authentic handmade leather holster. It combines all the old time excitement of a good old single action six shooter with a few twentieth century design improvements and advanced German engineering. The result is a great performer with lots of stamina...all at an extremely reasonable price.

Features include:
- Solid steel construction;
- Transfer bar safety, the industry standard;
- Hammer forged barrel;
- Three position hammer;
- Handsome, smooth walnut grips.

CALIBERS: .357 Mag, .44 Mag, .45 Colt,
New .357 Mag/9mm Convertible
BARREL LENGTHS: 4.5", 7.5"
CAPACITY: 6 Rounds
FINISHES: Blue, Color Case Hardened, Chrome
OPTIONS: Ivory polymer grips

Windicator Double Action Revolvers

Windicator is E.A.A.'s state of the art double action revolver. It's loaded with special features, yet it's priced so low it's an automatic "best buy" in anyone's book. The Windicator has a selective double/single action. It comes standard with great features like a swing-out cylinder, a hammer block safety, and rubber finger groove grips. Best of all, Windicator is quality built by dedicated German craftsmen and covered by E.A.A.'s exclusive Limited Lifetime Warranty.

CALIBERS: .22 LR, .22 LR/.22WMR, .38 Spl, .357 Mag
BARREL LENGTHS: 2", 4", 6"
CAPACITY: .22 LR/.22 WMR - 8 Rounds;
.38 Spl & .357 Mag - 6 Rounds
FINISH: Blue

Small Bore Bounty Hunter

(shown with optional fully adjustable sight)
For lots of economical shooting fun, you can't beat this affordable, rimfire single action revolver manufactured by Tanfoglio of Italy. The Small Bore Bounty Hunter brings with it all the flavor of the Wild West, but boasts modern features that include a hammer/frame safety and drift adjustable sights. It comes standard with smooth walnut grips and is available in three different barrel lengths.

CALIBER: .22LR/.22 Magnum convertible (comes with two cylinders, one in each caliber)

EAA LONG GUNS

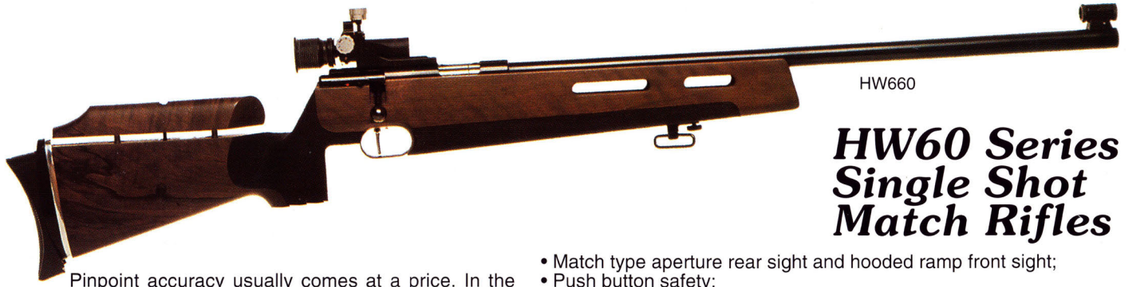
SP1822H

SP1822 Sporter Series

The respected Italian gun maker, Sabatti, has produced a premium semi-auto .22 sporting rifle with the looks, the feel and the performance of the most popular magazine-fed sporters in the world. *But, with their high-value price, we wouldn't be surprised to see these sleek little beauties become the new favorites.* Three different match grade SP1822 models are available, including two with heavy bull barrels. Features include:

- SP1822 Sporter *(not shown)* - Traditional wood stock, adjustable sights, standard barrel;
- SP1822H *(shown above)*- Two-piece wood stock, no sights, a scope mount base, and a heavy bull barrel;
- SP1822TH *(not shown)* - A colorful spaceage thumbhole stock of durable material, no sights, scope mount base, and a heavy bull barrel.

CALIBER: .22LR
LENGTH: Overall - 37.5"; Barrel - 18.5"
WEIGHT: 1822 Sporter - 5.25 Lbs; 1822H and 1822 TH - 7.15 Lbs.
CAPACITY: Ten round detachable magazine (will accept many after market 10/22 style magazines and accessories)



HW660

HW60 Series Single Shot Match Rifles

Pinpoint accuracy usually comes at a price. In the case of the HW60 Series, that price is much lower than you might expect...but the performance is no less satisfying than the world's best. Advanced German engineering has helped make these single shot match rifles eye-popping, super accurate performers. Two HW60 models are available...the basic HW60 Match rifle *(not shown)* in either right handed or left handed versions...and the HW660 Silhouette model with an adjustable stock that allows adjustment for both the length of pull and the height of the comb. Other features include:

- Precision rifled match barrel;
- Adjustable match trigger;
- Match type aperture rear sight and hooded ramp front sight;
- Push button safety;
- Stippled walnut stock with front sling swivel and grooved accessory rail;

The HW60 Series accepts most *Anschutz accessories.

CALIBER: .22LR
LENGTH: Overall - 45.7"; Barrel - 26.8"
WEIGHT: 10.8 lb.
CAPACITY: Single shot
FINISH: Blue

Scirocco Over/Under Field Grade by Lu-Mar

Every upland bird hunter knows exactly how a classic over/under should perform. And this affordably priced Italian shotgun is a pure hunter through and through...equipped with all the features a field gun should have, built to deliver years of reliable performance in less than perfect field conditions, and priced so every hunter can afford to own one. It's unquestionably one of the best values in the over/under shotgun market today, with features that include:

- Waterproofed, European walnut stock;
- Single trigger with automatic safety;
- High grade all-steel receiver and extractors, individually hand fitted. Receiver is forged for toughness and nickel plated;
- Vented rib with florescent front sight.

GAUGE: 12 GA, 3" chambers
BARREL LENGTH: 26", 28" or 30"
CHOKE: Fixed; Mod; IC
